

Have you seen Nip/Tuck? 3 weeks ago- I was flipping by and the guy was having sex in different ways with the woman. Whether he was really doing it--couldn't tell (penetration)--but there was nothing left to imagine. 2 Sundays--still trying to find a movie--the same guy-same show was having sex with a woman on a sofa or something and her legs were straight up ,she had her hand over her breasts but the "thrusting" motion they were doing-was too much. On the cartoon network I've watched "adult-swim" and not too bad, but 5 wks ago--the cartoon character was drawn with his pants down, behind showing, having anal sex with Doggie Daddy. What's wrong with this picture.?? Kids are up late during summer seeing this stuff and we wonder why AIDS, STDs and pregnancy is so rampant. A big deal was made about Janet's pastie on NFL game, Is that as bad as what I've described???
